Rick Randall
rickr@nnepa.com; rick@lifespanusa.com

The National Network is a cooperative alliance of nationally recognized estate planning attorneys from across the country. Together they provide one another with the support and tools needed to serve their clients better while building highly successful and rewarding practices.

Estate planning is financial, retirement, business succession, charitable, medical, disability, legacy, and gift planning. Its scope is not daunting, as it might seem from this list; it is exciting and rich in opportunities.

Dedicated to creating Plans That Work, Rick and his network of attorneys use a "process based" method of helping clients with their estate planning efforts. This process includes an extensive lifetime support ("maintenance") system for each plan. The "maintenance program" includes help with health care decision-making and other issues involving the aging process, as well as beneficiary training and support.

The Network process is collaborative, and includes cooperation and coordination with financial professionals in every plan. Rick Randall, Chairman and CEO, has an insurance background and certainly understands the use of whole life insurance. He is helping his network increase their learning in this space as well.

Rick and his partners in his private firm, Randall, Gentry & Pike are able to help clients nationwide via phone and web which they do by coordinating with a local attorney (if needed) for state specific items. We refer him to our clients who are ready to create or update their estate plans.
